DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art fails to disclose or make obvious an electron beam treatment apparatus that comprising an array of lamps that output radiation, a lamp heat shield, disposed above the array, having a radiation absorption portion disposed above the lamps; and a radiation reflection portion adapted to reflect radiation from at least a portion of the array towards the substrate when disposed at the treatment position.

Although it is known in the art to provide heating means including heating elements and lamps to provide uniform temperature of substrates that are being treated by an electron beam, the use of lamps below the substrate and a heat reflector/absorber disposed above the array to improve uniformity of heating has not been disclosed.

Claims 2-11 are allowed by virtue of their dependency on claim 1.

With respect to the independent claim 12, the prior art fails to disclose or make obvious a lamp heat shield as disclosed in claim 1.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"

Relevant Prior Art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
